AS22-98-1

Cargo Hook for BK117

TECHNOLOGY

Release control : Mechanical by flexible cable or Manual on ground

Resetting : Automatic

Indicator : Loading control light

DIMENSIONS & WEIGHT

Nominal load : 1500kg - **Minimum release load** : 5kg - **Ultimate load** : 5625kg

Total dimensions : 221 x 286 x 48mm (8,7 x 11,3 x 1,9lb)

Weight : 4,5kg

POWER

Power supply : 18 to 28 V DC

Consumption : 5A with 28V

Temperature : -45°C to + 70°C (-49°C to 158°F)

LIFE CYCLE

Storage : 5 years in conditions explain or repair manual

Overhaul : Every 5 years or every 1500 drops in Authorized Repair Station

Warranty : 2 years for a new product, 1 year after repair or overhaul

APPLICATION

Formely known as BK117-C2, Airbus Helicopters named this powerful civil and parapublic helicopter H145.

Thanks to ARESIA's S1609-8 Cargo Hook and its heavy load capacity, applications are multiple :

- Load transport
- Construction
- Firefighting
- Lifting works

PRODUCT

AS22-98-1 : cargo hook itself with the emergency mechanical cable.

AS22-98-2 : kit with the load measurement system.

FUNCTIONS

The AS22-98 cargo hook is designed for H145 (BK117-C2) helicopter sling cargo missions. It can carry a maximum load of 1,5T under the helicopter and ensure the transport of loads under the helicopter.
